

# "Girl's Day Out"

"Girl's Day Out" workshops are designed for middle school girls (grades 6-8). During each event the girls are placed into groups, led by a female college student who is majoring in science, technology, engineering or mathematics. High school girls are also encouraged to attend and help bridge the age gap between the college students and middle school girls. During the event the girls will have the opportunity to experience the following:

- Presentation by female STEM professional; past participants have included Dr. Patricia Gruber, the Director of Research at the Office of Naval Research and Carmela Keeney, the Technical Director of SPAWAR Systems Center Pacific.
- Viewing of interactive STEM demonstrations
- Tour of University campus and lab
- Enjoy a free lunch!!!

## Upcoming Dates

January 23<sup>rd</sup>, 2010 at UCSD
