

Registration open to 8th-12th graders. Chaperone participation and College-age students are also invited to register
Ancestral Knowledge and Indigenous Science from the Mountains, to Rivers to the Sea

San Diego, Southern California June 27 – July 4

•“La Jolla Man” and village is over 7,000 years old and is remembered on the Campus of University of California, San Diego (UCSD), atop the cliffs the Pacific Ocean. Our participants take residence at UCSD and take the college experience a step further. Cool beach breezes, crystal waters and the strength of the mountains provide us the perfect outdoor classroom. Includes rez tours and celebration @ Pechanga 4th of July Pow-Wow

Mammoth Lakes, Yosemite, Mono Lake, Central California: July 8-11

•Native like water, native like rock. Under the stars, on the water and in the depths of natural history. Our ancient past is fathered and mothered by the ancient changes in geo-logical time - earth sense. Earth is sacred ground and our classroom. Recreate, refresh, recognize.

Northern California: July 15-19

•Northern California's land, rainforests and Pacific Ocean speak. The original people traditionally host us as we make our way from UC Cal Berkeley to Humboldt State and beyond. To know California is to experience and feel the vibe of the north.

International Exchange & Family Adventure, Panama, Central America: August 5-11

•Open to families or individuals – no age limit. Retreat & explore rainforests, tropical beaches with monkeys, tucans & abundance of nature. Traditional tribal inter-exchange at the center of “Turtle Island”. Island hoping, snorkeling, waterfalls and pure nature await us on a journey of a lifetime. Know “all our relations”!
